

OBJECTIVE

Full Stack Developer seeking the role of Head of Web Development for Technika'27, bringing hands-on leadership from co-heading the web teams of Technika'26 and Prakrida'26. Experienced in owning a fest website end-to-end — architecture, registration systems, and performance under high-traffic load — and in coordinating a student developer team from design through deployment.

LEADERSHIP & EXPERIENCE

Co-Head Web Developer, Technika'26 BIT Mesra	2026 – Present
- Co-led development of the official website for BIT Mesra's annual technical festival, managing frontend design and technical implementation with the core web team. - Built event listings, registration flows, dynamic content sections, and responsive interfaces using React, Tailwind CSS, JavaScript, and GSAP. - Focused on scalability and performance during high-traffic registration periods.	
Co-Head Web Developer, Prakrida'26 BIT Mesra	2026 – Present
- Owned the complete web development process as primary web developer for BIT Mesra's sports festival. - Built team registration, fixture tracking, live updates, and event information using React, Node.js, Express, and Tailwind CSS. - Designed a mobile-friendly, reliable experience for participants and event coordinators.	
Co-Web Developer, IEEE Student Branch BIT Mesra	2025 – Present
- Helped lead the web development team for the IEEE BIT Mesra Student Branch, building and maintaining the official chapter platform. - Improved club visibility and centralized event resources using React, Firebase, Tailwind CSS, and reusable UI components.	

SELECTED PROJECTS

Technika'26 Official Website — React, Tailwind CSS, JavaScript, GSAP
Built event discovery, registration flows, dynamic content, and animated interactions for BIT Mesra's technical festival. github.com/aayusharyaiaam/technikna_2K25
Prakrida'26 Official Website — React, Node.js, Express, Tailwind CSS
Built team registration, fixture management, and live event updates as primary developer. github.com/ShiftainAhmad/Prakida_Demon
IEEE Student Branch Website — React, Firebase, Tailwind CSS
Centralized event resources, announcements, and chapter information in a responsive, maintainable interface. github.com/aayusharyaiaam/IEEE-web
SENTINEL — Agentic AI for Prompt Abuse Prevention — Cybersecurity Hackathon, 1st Runner-Up
Built an AI security system with intent-aware analysis and session-level behavior tracking to detect multi-step attacks.
SafeTourist — Smart Tourist Safety System — DevConquest 24-Hour Hackathon, 2nd Position
Privacy-focused tourist safety platform with face verification, digital passports, geofencing, and panic alerts.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript ES6+, TypeScript, React.js, Tailwind CSS, GSAP, Vite
Backend: Node.js, Express.js, REST APIs, Golang, Python, C, C++
Databases & Services: MongoDB, MySQL, Firebase
Tools & Platforms: Git, GitHub, Docker, Vercel, NGINX, Cloudflare, Figma, Postman, GitHub Actions, Sentry

EDUCATION

B.Tech, Electronics and Communication Engineering Birla Institute of Technology, Mesra (Patna Off-Campus)	2024 – 2028
Aggregate CGPA up to 4th Semester: 6.95 / 10	
Senior Secondary (Class XII), CBSE D.A.V. Kapil Dev Public School, Ranchi	2023 – 2024
Percentage: 91%	

CERTIFICATIONS & ACTIVITIES

- Deloitte Australia Cyber Job Simulation, Microsoft Azure Fundamentals, GitHub Graph Certification, DevFest Cloud Track - IGNITE & IEEE Club member; contributed to SIH 2025 and Hacktoberfest 2025; 100+ LeetCode problems solved
